PARTNERSHIP - JAPAN

Arquivo pessoal

Capacitação no Japão

Cinco professores do Centro Paula Souza integraram um grupo de consultores e docentes brasileiros (*foto*), que participaram recentemente de programa de capacitação de um mês em Nagoia, no Japão. Eles foram conhecer as tecnologias de gestão de qualidade e de gestão de produção aplicadas na indústria automobilística japonesa, que possui elevado grau de performance nos requisitos: qualidade, custo e prazo de entrega. A capacitação foi possível graças a acordo bilateral de cooperação técnica entre os governos brasileiro e japonês, implementado pela Agência Brasileira de Cooperação, do Ministério das Relações Exteriores, e a Agência de Cooperação Internacional do Japão (Jica). A iniciativa vai ao encontro de esforços para incrementar a qualidade e competitividade da indústria de autopeças no País, segundo o Sindipeças, um dos participantes do grupo.
